

SIC-A-R2-P

Air-Cooled water chiller

SHINI EUROPE

Refrigerant R410A

Very efficient and environment friendly two component refrigerant

LAE Electronic controller

ensures stable process of temperature

Safety elements

Pressure switch and antifreeze thermostat

Efficient Danfoss compressor

(in model range SIC-12A - 114A)

Main tank

Stainless steel insulated main tank

Large flow main fans
efficiently remove heat from condensers

Large surface area of condensers
ensures a good performance

Insulated evaporator
prevents unnecessary condensation of water steam

CNP Pump
with large flow

Pressure gauge
Build in high and low pressure gauge
