

SCM

Volumetric doser

Feeding screws
gives a possibility to set up device for proper production

Modular design
gives a possibility to fast disassembly of the unit and to clean it

Adopted magnet
will catch each small metal scraps in material

Blender (optional)
ensures a very good material mixing

Inspection window
ensures a quick-view on masterbatch level

German gear motor Dunkermotoren
characterized by a very good reliability

Comfortable shut-off point
allows fast empty rest of material

Digital controller
has communication ModbusRTU RS-485
