

# STM-WF

## Mould Temperature Controller with Large Flow

**SHINI** EUROPE

### Hanyong Nux brand controller

adopts easy operation, overload protection with faults reporting. Additional RTU Module ensures remote control of STM, e.g. with PC or IMM

### New „large flow” pump, CNP brand

adopts large flow pump with stable performances and proper pressure

### Low and high pressure sensor

ensures proper working of the device

### Spring (loaded) safety valve

starts up when pressure is too high

### Temperature control system

ensures overheat protection
